EDUCATIONAL PROJECTS

Be inspired by projects from all over the world and explore how others have used our floorings to create spaces to thrive in.

BOLON

WOVEN DESIGN FOR THE CONTRACT MARKET

Bolon is a design-driven family business specialising in innovative flooring solutions for the contract market. Since the start in 1949, we have gone from a traditional weaving mill to an international design brand. With a fundamental dedication to sustainability, we design and produce all our products in Ulricehamn, Sweden.

Bolon is suitable for educational projects of all sizes and offers versatile solutions for your interior designs. Karolinska Institute, Istituto Marangoni, Copenhagen University, Goethe Institute, University of Helsinki and University of Applied Sciences of Turku are some of the well-known educational facilities that have chosen Bolon for their premises.

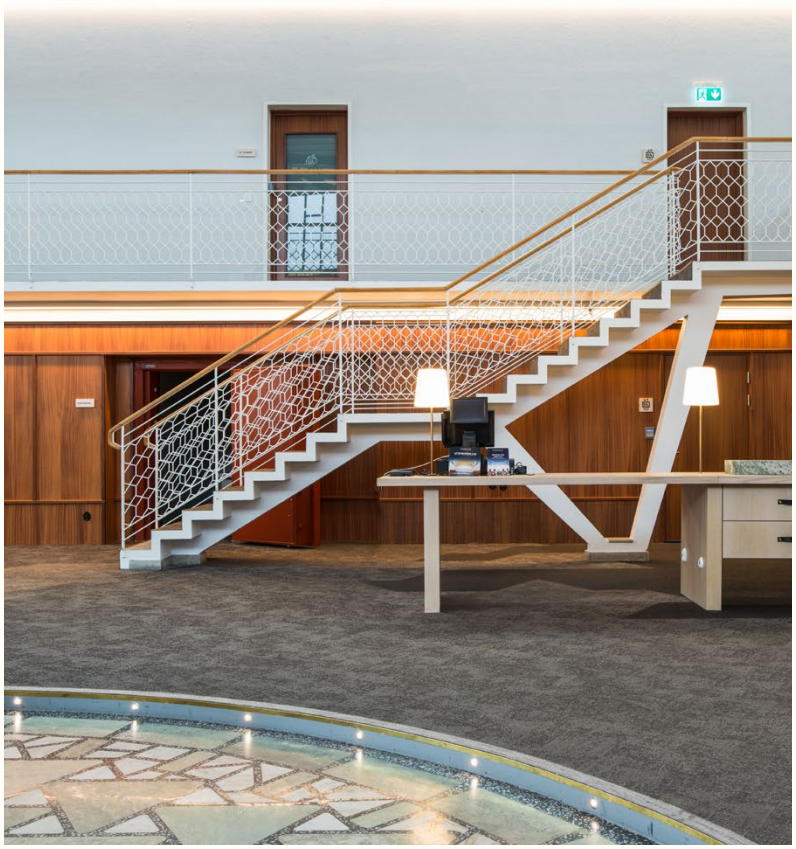
Low score · High score · Not available

[1] *Due to lower cleaning and maintenance costs comparing carpet and hardwood and the durability of Bolon flooring the LCCA will give a positiv result. The LCCA can be calculated per project by a third party and is not something we calculate ourselves.*

[2] *Bolon flooring has a long product lifetime during which we offer warranties up to 15 years.*

[3] *Unlike textile, carpet or hardwood, our flooring retains its appearance without flattening.*

[4] *Our acoustic flooring improves the decibel value up to 19 dB.*



BEAUTY WITH BENEFITS

- All Bolon flooring and rugs are climate-neutral and contain 68% recycled materials.
- With Bolon, you have endless possibilities to create an inspiring, educational environment with excellent functional features that support good indoor air quality.
- Bolon flooring makes it easy to roll with castor chairs and wheelchairs, which enhances smooth working.
- Feel safe with your investment due to the high durability standards, long lifetime, and 10– to 15-year warranty.

- Easy to maintain and resistant to spills

HAGASKOLAN / Stockholm, Sweden
BOTANIC: Sage

CLEANABILITY

Bolon flooring represents an unbeatable combination of design, durability, ease of cleaning, maintenance, and sustainability. Looking after it correctly will give you many years of pleasure and performance.

Due to its impermeable and solid construction, it is simple to maintain – most cleaning and maintenance can be accomplished with a vacuum cleaner, scrubbing brush, and water.

"Seeking knowledge and engaging in education is about envisioning a new future. Bolon flooring is a design solution with the ability to create a visual foundation for that quest."

KLARA PERSSON,
DESIGN DIRECTOR

CLIMATE-NEUTRAL PRODUCT AND PRODUCTION

Sustainability isn't just something we say; it's what we do. We are proud that our sustainability work covers all our products, not just selected niche collections. This means that all our products contain 68% recycled material, with 0% climate impact in every square meter. All our manufacturing takes place in our climate-neutral factory in Sweden. Through the Back2Bolon take-back programme, old products installed with non-permanent solutions can be returned for recycling.

Read more about our sustainability and certifications on our website **here**.

CASE STUDY – EDUCITY

EduCity is Kupittaa campus' new centre for education, innovation and research. Located in Turku Science Park, the seven-story building combines existing buildings with modern architecture and links innovation and education through inspiring and sustainable architecture. The dynamic shapes, woven structure and versatile colours of Bolon helped architects choose Bolon Studio Triangle, Artisan Slate, customized Artisan Kale and Elements Wool for the 4000 m2 project. The result is a dynamic, and inspiring educational experience. After all, learning isn't meant to be boring.

WOVEN DURABILITY

Schools, universities and other educational premises demand flooring solutions that are durable, easy to clean, and at the same time, comfortable. With Bolon the educational interior will be both creative, inspiring and practical to use.
